

SKOOL EXAM PREP[®]

A WORD TO PARENTS

Stimulate Your Child's Maths & Science Talent

With our

SKOOL EXAM PREP Courses

New Challenges

Surely these are times that belong to those who are born with a computer in hand! The prodigy of yesteryears is a normal child of today. For our youth to stay in the race, their I.Q. has to go up, up, up!

If you watch closely you may see in your school-going child, the signs of a budding Maths-Science Wizard. The best of schools may not find the time to pay special attention to your ward's exceptional flair for Maths and Science. You owe it to your child, to yourself and to the country, to do something about it, in this age of galloping technology — to give your child that extra input for the exercise of his mind in Maths and the Sciences.

Our Children's Potential is Limitless

Properly nourished, our children's potential is limitless. The limit of their growth is the standard **we** set for them. We have to develop their ability for independent thinking and analysis, without making mental monsters of them. Their awareness of Maths and the Sciences has to be heightened very early in this age of the Information Super Highway.

It is against this background that Brilliant's Skool Exam Prep Courses seek to give your growing child that extra input so necessary for carving out such a successful professional career.

How SKOOL EXAM PREP is Designed to Meet the Challenge

Our Courses are designed to groom children to be ready when the time comes for technological and biological courses. Our experienced Professors, extremely familiar with the Board Syllabus as well as with the IIT-JEE, BITSAT and NEET have prepared the lesson material to enable young students, stepping into high school (Stds. IX to XII) to get a firm grasp of basic concepts in Maths, Physics and Chemistry and Biology; and upon entry into Std. XI, to be better placed in order to boldly face the rigours of a 2-year **parallel** preparation for IIT-JEE and Medical Entrance Exams.

SKOOL EXAM PREP is organised, structured and presented in such a manner that the eager young minds will have a smooth and easy passage - complementing and supplementing, but not in any way hampering, regular school work.

The courses cover all four subjects – Mathematics, Physics, Chemistry and Biology, to meet the immediate requirements of the school Science curriculum upto Std X, and also to help students select the desired combination of subjects for the +2 course, where they can then continue with the combination of their choice. Each course also includes an extensive series of online chapter-wise and full-syllabus tests so your child can test his or her preparation all during the year.

Finally, on completing the SKOOL PREP courses, our students will have a distinct advantage over other students, not only with regard to their performance in the Standard X and XII Board Exams, but also in the preparatory courses for the Entrance Exams for admission to the IITs and Medical Colleges/Other Engineering Colleges

How do Brilliant's SKOOL EXAM PREP Programs stand apart and ahead of similar programs offered by other Institutes?

- The qualitative and quantitative superiority of Brilliant's SKOOL EXAM PREP Programs, truly assist students to develop conceptual understanding and analytical thinking capability of a very high order.
- The course content and structure will help students to “learn to understand” and create confidence.
- The quality, in terms of depth of coverage and complexity, of the questions in our Test Series is far superior to that of other Institutes' offerings.
- Quantitatively too, our Tests are more exhaustive of the syllabus covered in each Chapter, as each of our Tests is of 1 hour and 30 minutes duration, compared to the much shorter tests offered by others.
- As a result of these advantages, Brilliant's SKOOL EXAM PREP serves to build a rock-solid foundation to anchor students' more serious final preparation phase, while in Classes XI and XII , for Board and Competitive Entrance Exams like the IIT-JEE, BITSAT, NEET-UG, the Medical Entrance Tests conducted by AIIMS, JIPMER, as well as the Engineering Exams conducted by various colleges.

We, at Brilliant, are pleased to be able to offer career-minded youngsters of our country this additional support of, a convenient form of comprehensive learning and self-assessment in their quest for a bright future.

Dear Student,

The Bane of Rote Learning

As a young student, when you learn Maths and Science subjects, you can truly develop your analytical thinking. Such analytical capability will stand you in good stead right through Professional Undergraduate and Postgraduate studies, whatever your preference maybe. It will also provide a firm foundation for a creditable performance in various Competitive Entrance Exams — helping you access the career of your choice. All this is possible ONLY if you **'learn to understand'** rather than 'learn by rote' to regurgitate in the school exams. Learning by rote limits you to just securing good marks in school exams. It does precious little to develop your understanding of concepts and analytical thinking capability. And it fails miserably, therefore, in grooming you to possess the capabilities to face the challenges of your future, in your professional as well as personal life.

The Art of Studying Right

The art of studying well engenders the creation of a passion for the subject you learn. You must be thrilled to go from one topic to the next — as you discover a growing interest in the subject. After all, your time is precious and can't be spent on 'boring' learning

Learn to understand. Learn to love the subject you're learning. When you attain this healthy attitude, your fears of exams will fly away. All you'll be left with is CONFIDENCE - solid as a rock. And that rock will be the foundation for your career in the future, besides being the support to help you face the challenges of life in general.

COURSE HIGHLIGHTS

Our SKOOL EXAM PREP courses are intended for students of classes VIII to XII who are studying Mathematics, Physics, Chemistry and Biology, in high school and aim to build a strong base effectively supplementing and expanding the knowledge acquired in school.

Brilliant's SKOOL EXAM PREP ONLINE TEST SERIES
